The Madison County Regional Office of Education is sponsoring the Senior (high school level) and Junior (6th, 7th, & 8th grades) Olympiads. The Senior and Junior Olympiads will be led by Dr. Larry Busch from SIUC and the ROE staff.

Each Olympiad requires a four-person team consisting of the best problem-solving students in your gifted program. A school district or gifted cooperative may enter up to three **(3) teams from each attendance center to the Junior Olympiad. However, there is no limit to the number of teams a school can enter for the Senior Olympiad. We are limited to the first 45 teams to register for each the Junior and Senior Olympiads.**

Teams will compete in solving a variety of problems requiring higher level thinking skills and group task skills. Team points will be awarded for problem-solving exercises in a variety of areas including audio and visual. Trophies will be presented to winning teams. Certificates of participation will be presented to each person competing. Exercises and projects have varying degrees of difficulties, but all are challenging and exciting.

Each team should bring pencils, paper, scissors, ruler, and markers.

DO NOT BRING: Tape (masking, scotch, etc.), Toys, Additional Students, or Electronic Devices (including cell phones) except for cameras.

NO ONE is allowed to attend as a spectator. Proper school attire is expected.
